The Good Health Nurse Question

Public Health and the means of maintaining it means far more to all of us than Political or Economic positions. Health is vitally important to every person. Norway has never had a Good Health Nurse, but in towns and communities where the Health Nurse has been placed, the experiment has been very successful and good results have been accomplished, in preserving health.

It is noted in statistics that 70% of school children of the country are not able, physically, to realize their possibilities. 30 per cent. of the male population is unfit for military service and probably 60 per cent. of all the people between the ages of 40 and 60 have physical defects. Hence the great needs of a Community Nurse, who can visit the schools and also the pre-school children and note the defects which may be corrected in childhood, and thus prevent serious results in after life.

The work of a nurse in a community is linked up equally with the smaller circle of the home and with the larger sphere of the welfare of the health problems of the whole town. She makes her daily visits to some family, doing bedside nursing, school nursing, and is interested in child welfare work, both in the village and the rural districts, thus reaching all ages.

Morton, President of the Norway-Paris club presented a large silk official Kiwanis banner to the new club. Henry E. Stahl, President of the Berlin Kiwanians, accepted the gift with appropriate remarks.

Kiwanis songs and orchestral music were interspersed with the remarks, the last number on the program being the "Star Spangled Banner."

The special arrival in Norway about mid-night bearing a tired but enthusiastic crowd. All are singing the praises of the Berlin citizens, who know how to entertain most royally.

PICTURE BILL STEPPING HIGH

William E. DeCroteau, known over this section of Maine as "Picture Bill" and showman unsurpassed, is in his native element as manager of Day Street Olympia Theatre in West Somerville, Mass. In fact, he is so outstanding, the Cambridge Tribune has devoted a column for a feature story plus an excellent half tone to his successful campaign of putting life into a theatre once considered as "dead."

Mr. DeCroteau demonstrated his ability as a unique advertiser and go-getter while in Norway, while manager at one time of three movie houses, namely the Rex Theatre, the Strand and the Robinson Theatre. His methods in Cambridge, are much like his hit-hard policy in Norway, but on a more extended scale, that we quote from the write-up for the benefit of the Weary Club and a host of other friends Way Down East.

The Cambridge Tribune says in part: "Manager DeCroteau knows how o run a theatre. He has organized a polite staff, made patrons feel at home, put on the best programmes the house ever had, and has worked out an effective advertising campaign. Within a year Day Street Olympia has been put on a paying and capacity business. He got so much business, that Davis Square, Somerville, began building movie houses. But Manager DeCroteau isn't worrying. The E. M. Loew Theatres—of which there are fourteen—is going to remodel Day Street Olympia next Spring, outside and in, giving the manager still more room and facilities.

Mr. DeCroteau is built on big-hearted lines. He has been through the mill himself and know what a boost means. He is a man who gives people a chance, and half a hundred ambitious young men and women in both of the twin cities have had a chance on the Day Street stage.

He has built up successful children's matinees, specials, and vaudeville, and has great organizing capacity. Frequently he goes on the E. M. Loew circuit to get new theatres started.

"Summing up successful theatre management, Mr. DeCroteau says it simmers down to "Attention, cleanliness, advertising, backed up with big quality shows—quality and quantity—at popular prices."

"He puts on shows in a "different" way, and insists upon courtesy. He gives everything his personal attention and gives his patrons wonderful shows for a quarter. He gets people interested in the theatre and he grips them as steady patrons. That's one year's record of a house surrounded by modern up to date theatres.

"Manager DeCroteau knows how to popularize the playhouse. He is, as a trade paper of Meriden, Conn., said, "a business man par excellence and all-'round good fellow." Mr. DeCroteau lives with his two young children in Lynn, where E. M. Loew's Theatres operate the the 'Capitol' and 'Dreamland'."

COMMISSIONER ADDRESSED POMONA

Frank P. Washburn, Commissioner of Agriculture, gave an interesting talk at the last Pomona meeting, on "What the State of Maine is Doing for Agriculture."

He spoke of the University of Maine and its good work, 66 per cent. of the boys, he said, go back to the farm. The appropriations of the State and Federal Government are $108,000 with $3,000 from the county. 70 per cent. of the blueberries used are raised in Maine and are sent to twenty-four different states. Maine also has one-half of the certified seed used.

Mr. Washburn used lantern slides during his lecture, which gave us better ideas of the certified seed potatoes, Maine State College, spraying, sanitation, and various other pictures.

The members of the Monday Club met Monday afternoon at the home of Mrs. Donald B. Partridge. Two tables were filled for auction. Dainty refreshments were served.

WALES & HAMBLEN
Bridgton, Maine

IMPROVEMENTS
We will replace your original fixtures with modern snow-white Bath Room Equipment.
We will install an extra water-closet downstairs to accommodate the "Little Folks" and to help out the "Rush Hour" upstairs.
If your Heating Plant is unsatisfactory, we will install a new one, using your old system to keep the house warm while making the change.
Many Laundry Rooms need a drain in the floor to empty the Washing Machine. This doesn't cost much, and it saves a lot of time and hard work for the housewife.
Before renewing woodwork and re-decorating, all water piping between floors and in partitions should be replaced with "Brass," the pipe of lifetime service.
A new White Kitchen Sink, open, and clean underneath, is a big improvement at a low cost.
Estimates on the above work and on any Plumbing and Heating Problems will be promptly and cheerfully given. We believe it to be to the customer's advantage to make inside changes at this time of year when they may be given preference in time and attention over other work.

MAKING OUR HOMES CHRISTIAN

LESSON TEXT—Eph. 5:22-6:4.
GOLDEN TEXT—Let us love one another for love is of God.
PRIMARY TOPIC—The Child at Home.
JUNIOR TOPIC—Obedience at Home.
INTERMEDIATE AND SENIOR TOPIC—Unselfishness in the Home.
YOUNG PEOPLE AND ADULT TOPIC—How to Make Our Homes Christian.

I. The Importance of the Home.

The oldest and most important institution in the world is the family. It is the foundation stone upon which all other institutions are built. It is the measure that the home is kept pure and strong will the church, society and the nation be pure and strong.

II. The Makers of the Home.

The foundation upon which the home is built is marriage, and the makers of the home are the man and the woman united in holy wedlock.

III. The Obligations of the Members of the Home.

1. The husband (Eph. 5:25-32).

(1) The husband is to love his wife (v. 25). Observe—

a. The measure of this love is the love of Christ for His church. Christ loved the church so that He gave Himself for it. His was a self-emptying love. The obligation enjoined the on the husband is to manifest the self-emptying love toward his wife.

b. The purpose of this love (vv. 26-27).

The purpose of the husband's self emptying love is the perfection of his wife's character.

c. The ground of this love (vv. 28-30).

After all, the ground of the husband's love for his wife is his own self. He that loveth his wife loveth himself.

(2) The husband is to be joined unto his wife (v. 31).

When the time comes for a man to establish a home, he leaves his father and mother and is joined to his wife. This results in the creation of the new unity of society.

2. The wife (Eph. 5:22-24).

She is to be subject to her own husband. This is not an arbitrary matter, but it is according to the divine arrangement. It is to be "as unto the Lord." It is important to inquire as to what kind of subjection is enjoined. In order to understand this, we must grasp the figure which the apostle introduces of Christ and the church. Christ's loving the church is without ulterior motive, as true love "seeketh not its own." Since Christ gave Himself for the church, He thus lifted the church into union with Himself and became to it Lord in the power of His love. The church responds to this love by lovingly recognizing the Lordship of Christ. Just as the church graciously comes under the guidance and direction of Jesus Christ does the wife respond to the love of her husband. Headship of the man is the divine order. Headship never suggests "boss-ship" nor governorship. Observe with reference to this subjection—

(a) The motive (v. 22). "As unto the Lord."

(b) The ground (v. 23). "The husband is the head of the wife."

(c) The extent of (v. 24). "In everything."

3. The children (6:1-3).

The divine purpose in the union of the male and the female in the bond of holy wedlock is the propagation of the race. When God pronounced His benediction upon the first pair He said, "Be fruitful and multiply."

(1) Obedience to parents (v. 1).

The ground of this obedience is the fact that the parents stand in the place of God to the child.

(2) Honor the parents (v. 2).

Obedience to parents is limited to the period of immaturity. When the children take their place in the establishment of new units in society they are no longer under obligation to obey their parents. Two gracious promises are attached to this commandment that it may be well with thee and that thou mayest live long on the earth.

4. The parents (v. 4).

Doubtless the word "fathers" was intended to be inclusive of the "mothers."

(1) Provoke not your children to wrath.

This doubtless means that in the exercise of parental authority there should be avoidance of irritation.

(2) To bring them up in the nurture and admonition of the Lord.

Nurture doubtless means to educate and admonition means discipline.

Too Much "Acid?"
Excess Uric Acid Gives Rise to Many Unpleasant Troubles.
AUTHORITIES agree that an excess of uric acid is primarily due to faulty kidney action. Retention of this toxic material often makes its presence felt by sore, painful joints, a tired, languid feeling and, sometimes, toxic backache and headache. That the kidneys are not functioning right is often shown by scanty or burning passage of secretions. Thousands assist their kidneys at such times by the use of *Doan's Pills*—a stimulant diuretic. *Doan's* are recommended by many local people. *Ask your neighbor!*

RESOLUTIONS OF RESPECT

Whereas the Great Commander of us all has seen fit in His infinite wisdom to remove from our ranks our dear sister, Elizabeth Manning, it is fitting and proper that we express our appreciation of her useful life, and our sorrow at her loss.

Resolved, That though she has passed from our earthly vision, we cherish the memory of her sunny presence and her words of cheer.

Resolved: That to the children and grandchildren we extend our loving sympathy, in this sad experience through which they are passing, and we commend them to the comforting care of our Heavenly Father.

Resolved: That these Resolutions be spread on our records, a copy sent to the family of our Sister, and one to the Norway Advertiser for publication, and that our charter be draped in mourning for thirty days.

"There is no death,
What seems so is transition.
This mortal breath
Is but the suburb of the life elysian
Whose portal we call death."

The Jackson Letter

Attending the County Fair in Florida, With Its Many Attractions

No. 628—5th St. N., St. Petersburg, Florida, Jan. 27th, 1927. Dear Friends: It was very pleasing to read in the last Advertiser that my "letters alone are worth the price of the paper," but I must tell you an amusing little fact and that is that when I was here before, some four years ago or five, I wrote several letters to the paper as now, and once I had to borrow a copy from Charles Blake to read, for the paper had been stopped as they had failed to receive our remuneration in time to keep up my subscription, and send me that week's paper. I'm not saying this to complain in any way for "business is business" and their policy is a business one, but it just came back to me what the Blakes, who were wintering at the Central Hotel here at the time, said, "Why your letter is good enough so they should have sent your paper even if your subscription had run out." So I laughed and said that evidently the Advertiser did not think so. But now shall change my mind and think that they really do think so, and tat it was the strict business management at the office that stopped my paper that year, still it seemed such a good joke that I had to tell you about it.

It does not seem to you up there in the North the time for fairs, but they are in full swing in Florida, now. We went to our "County Fair" at Largo, last week. The first surprising thing I noticed was that no automobiles were admitted to the grounds, and the next, that no admission was charged. Can you believe it, no admission to a fair? I thought the North Waterford World's Fair had the distinction of being the only free admission fair extant. We left the car at the gate or very near it, for someone was just kindly backing out from their parking space as we drove up, shortly after one o'clock.

Our first visit was to the Poultry House, and there we saw some of the finest poultry stock ever on exhibition. Such mammoth Rhode Island Reds I never saw in Norway, and the black Minorcas I supposed was a small breed of extra fine layers, but there were birds there as big as the biggest R. I. Reds. They called them Giant Minorcas. The Buff Orpingtons were beauties, too. I have heard that Florida was the best hen raising grounds in the country and I am sure of it now. I think I shall buy me a farm up state and go into the hen business and compete with some big concern like "The Red Feather Farm", recently given such an interesting write-up in the Advertiser.

The cattle sheds and hogs came next, but after a farm life in Norway, where they raise hogs like the "Champion Fiddler" raises, it seemed a very uninteresting place to us.

The Midway came next as we strolled along and such a Mid-way! Every sort of an amusement house was on the grounds from Nigger Minstrels, Trip to the Moon, to dozens of Try-Your Luck booths. The little Monkey Show was the best there. Twenty-five of the little creatures had been trained to go through their stunts. They were named mostly for movie stars and dressed to look like their especial patron Star. "Rudolph Valentino" would drive an auto round the ring several times and "stop in front of the prettiest girl" at the command of his trainer. He never failed to find the prettiest girl, too, in the audience, and how did his little animal instinct tell him to choose, I should like to know. Four huge monkeys drove autos in a race around the track without collision, and showed keen desire to win too. "Mary Pickford" and "Doug Fairbanks" did a cute little love scene. They were really very good and I thought of all my little boys and girls in Norway and wished that they might be with us to enjoy them too. There was a new contraption on the grounds that we had never seen before called the "caterpillar." Crowds of young folks were seating themselves in little low cars on a track that ran up and down, and around in a circle similar to the motion of the "Ocean-waves" at our county fair, but after the cars were filled, a tight green curtain that was ribbed lengthwise and then crosswise every interval of a car length, was snapped over their heads, and when the train set in motion it looked like a giant green caterpillar crawling around in a circle, with squeals and shouts of laughter emanating from its body. Ugh! I could only wonder what diseases lay in store for those who spent their money for this new "thriller", shutting them in from sunshine and fresh air in such close quarters.

The "Women's Exposition building" was filled with needle work to delight the eye for hours, and canned fruits and vegetables of every sort were ably displayed here. The "Four H's" club work was fine too, and the display was large, showing that the Florida boys and girls are alive to the possibilities of their state for agricultural pursuits.

A real live husky Dog Show was in progress with so many different breeds of thorough-breds that I can not name them. The grey-hounds were in the fore ground for there is a big race track in St. Petersburg, with kennels. There, the great lanky beasts held in leash by their trainers, strain on their straps, watching for the mechanical rabbit to start out on the track, then they are released and race off in pursuit. They are very exciting I am told, but when it comes to racing, good horse flesh is the best in the animal kingdom, I think.

Among the Try Your Luck booths there was one hung with Armour hams and if you spun red numbers, you had a second turn, if you spun white you paid for another try, but if you spun blue you won the ham! There was one booth of aluminum prizes in all sizes so that you won something; if you rung the pins designating the right number, it was a roasting pan; if not, it was a teaspoon or flapjack turner. "You can't lose" was the cry. Then there were the soft drink and hot waffles and "frizzled frazzled dogs" booths, as at all fairs.

But to us the Citrus Exhibit was the most interesting. Such glorious colorings, and shaded so beautifully, from the palest yellow grape fruits to the deepest colored oranges, and the huge shaddocks, some eight inches in diameter, with the pinkish pulp that is only fit for salads. And that makes me think of the story of the grape-fruit, perhaps you would like to hear it as C. C. Commander, manager of the Florida Citrus Exchange tells it. It was early in the 8th century that the bitter and sweet orange both flourished under the Himalaya Mts. The Arabs carried them into south western Asia and they were freely cultivated there for a century or so; then they went to Syria and by the Soldiers of the Cross, returning from their crusades, they went into Palestine and Italy. The bitter orange called the "Sevilla" was brought into Spain by the Mohammedans, and this is still used by the English manufacturers, as a basis for their marmalades that are known all over the world for their excellence.

Newly Discovered Fish Story Comments

Editor L. P. Evans of the Piscataquis Observer Has This to Say:

Your 'Fish Story' is interesting. Reference to Henry O. Stanley reminds me that I heard him discourse on Astronomy in the hotel at Mechanic Falls one evening, and greatly wished I knew the heavenly bodies as he did.

And Prof. Agassiz and Wm. P. Frye recalled the story the latter used to relate at Republican rallies and which for that reason you could not have heard.

The Professor had published a pamphlet to prove that a species of trout did not grow to weigh more (as I recall it) than 7 lbs. The Senator objected to that, but when the Professor insisted that it was proved (in his pamphlet) beyond a doubt, dropped the matter until he went to his camp at Rangeley and caught one that weighed 13 lbs. He shipped it to the Professor, who at once wired: "A theory of a lifetime is demolished by a fact."

PEARL OF THE STATE

Sweden! The home of the prodigal daughter;
Sweden! The home of the prodigal son,
Sweden! The land of eternal beauty,
Beauties, blessings, that ne'er come one by one.
Thy skies are as blue as a dye of deep azure,
Thy mountains, majestic and grand;
Thy lakes and rivers, a great inspiration,
Thy fish and game laws, the best in the land.
Sweden, your people are sincere and honest,
Perhaps they will never grow great,
True, they are nothing but farmers;
Sweden! You're the pearl of the state.

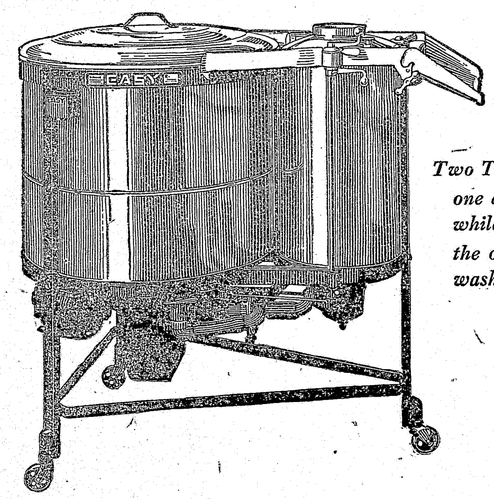
The NEW **EASY**
Washes and Dries
at the same time



Two Tubs—one dries while the other washes

NOW for the first time you can get a washing machine that will wash one batch of clothes and dry another batch at the same time—without a wringer.

Two Tubs—one washes while the other dries

This new Easy Washer has two tubs. The large tub washes while the small tub dries. Each tub holds as many clothes as are equal to eight double sheets.

Since both washer and dryer work at the same time, washing time is cut in half. Clothes come out of the dryer unwrinkled. Buttons simply can't come off. There's no wear or tear on the clothes.

Water handled for you

The new Easy's marvelous water-circulating system handles all the water for you without wasting a drop. It recovers the soapsuds from the clothes and returns them to the washtub. It sends the rinse and the blue waters back from the dryer to the rinse and bluing tubs. It even empties itself into the sink or drain when you're all through washing.

The new Easy will thoroughly clean heavy things like blankets and bath mats; yet it also washes and dries fine dainty pieces as gently as your own hands.

FREE

Without the slightest cost or obligation you can learn all about the amazing new washday ease the Easy gives women. Just call or write us and the new Easy and a demonstrator will be at your home on your regular washday. And if you wish to keep the Easy you can pay for it on easy monthly terms.

Spaulding Abbott's four yoke of oxen, divided into two teams, hauling birch, logs and cordwood into the village, is a sight for the present generation. Many years ago much of the teaming was done this way, then horses became more profitable for road work. Trucks and tractors now occupy the seat of honor for the world has acquired speed.

The freight yard is the busiest place in town. At present, wood for pulp is the big cargo departing over the branch, with many teams and trucks hauling from distant lots to the siding. From three to seven loaded cars are sent out every week day, while some bolts are piled on vacant lots for shipment later. Other outgoing freight includes dowels, spools, novelty turnings, shoes and lumber. Incoming products feature groceries, grain, hay and hardware.

BILLIARD ROOM RE-OPENED

Frank Hobbs reopened his billiard room under Beals Tavern, Monday night, with proper ceremonies, and with a large representation of the local sporting fraternity present to assist in the official exercises.

Three pool tables and one for billiards were in action with a large gallery to watch proceedings. The proprietor, Frank Hobbs, kept everybody happy and was ever present to sing the praises of his new game room.

The renovation has included a rack-lath ceiling, new wall paper, with the ceiling and woodwork done in white and light gray enamel. A new arrangement of lights illuminates the tables as never before, and dispels the gloom from the whole room. Smokes, soft drinks, chewing gum, etc., may be purchased from a stand in one corner.

Harry Greenleaf put up the ceiling and handled the carpenter work, while Harry Judkins papered the walls and applied the paint.

"WATERFORD CLUB"

The second weekly meeting of the "Waterford Club" was entertained Saturday evening, February 5th, by Mr. and Mrs. W. W. Parks of 250 Court St., Auburn.

The guests arrived together at eight p. m., and were duly received by the host and hostess. Cards were the order of the evening, and two tables of Whist were played until ten p. m. A very attractive informal lunch was served at this time, by the hostess, after which a pleasant social hour was enjoyed.

The Club broke up at eleven-thirty, and a good time by all was unanimously voted, the only expressed regret being that the only missing member, Richard Perkins, of Norway, Me., was unable to be with them this week.

The guests were Mr. and Mrs. W. E. Rice of 106 Pine St., Lewiston; Mr. and Mrs. W. H. Ray and Stanton Ray of 248 Court St., Auburn; Mrs. Lillian Morse, Miss Margaret Morse, and R. A. Douglass of Waterford.

The next meeting will be held at the home of Mr. and Mrs. W. H. Ray, at 248 Court St., Auburn.

Popular Portland Woman Recovers From Year's Illness
Nervousness, Upset Stomach and General Debility Quickly Relieved by Tanlac. Now Claims There Is No Healthier Woman in Portland.
Gains 62 Pounds

Those who are facing a life of pain will perhaps discover the surest way to get relief in the experience of Mrs. Margaret Wildes, 91 Myrtle Street, Portland, Me., who recovered from a distressing condition. She says: "In all Portland I don't believe you will now find a stronger woman.

"I had wasted away to a shadow and lost so much weight that I worried lest I become a physical wreck. I was 50 pounds underweight. I suffered for a year from this run-down condition. My cheeks were sallow. My eyes dull and lifeless. My appetite was poor and what little food I ate distressed me so I would become weak and faint.

"At times I felt so miserable I could not walk. After every meal gas bloated my stomach and indigestion pains caused hours of agony. At night I tossed and turned and would scarcely have enough ambition to dress myself in the morning.

"My condition became worse until I began taking Tanlac. This wonderful tonic gave me strength and health. I now eat everything without trouble, I sleep well, have regained my lost

weight and 12 pounds more. Today I feel better than I have in years."

Mrs. Wildes is only one of thousands who have been benefited by this wonderful tonic made from roots, barks and herbs. Tanlac helps build up the body, wipe out poisons and suffering. Keep well—take Tanlac.

Common Printing Office Experience

Have Been Through It

A personal letter from a brother publisher, relative to a female linotype operator, is as follows:

I am sure you will be interested in the getting out of our paper this week. Our operator was not able to work and we telephoned for an operator from the city. A woman was sent who went out on strike four years ago and had not worked since.

She came Monday morning with two grouches, one because we did not meet her at the train, and the other because she came from the station in a horse-drawn vehicle.

She grumbled about the machine because it transposed letters, but it did not transpose (and worse) her lines, so it took considerable time the next day to correct her proof.

She objected to taking a room in the Sprague building because there might be bedbugs there. She condemned the hotel because it locked (from the street) as if it contained "varmin." She also suspected there were rats in the office basement, and finally had a chill and declared she was a "sick woman" and quit that night.

She set half a galley in 2½ hours in the forenoon and did a little better in the afternoon, but we were glad to be rid of her."
